

Spatial Transcriptomics

P1 samples

GSE163629

Explore the spatial organization of cell populations and gene expression in the regenerating neonatal mouse heart.

SELECTION

Spot details

Select a spot on the tissue to inspect its value and coordinates.

DATASET DETAILS

Cui et al.

2021

Sample GSM5268646
Platform 10x Visium
Developmental stage P1 (postnatal day 1)
Condition MI · PSD3
Section 200 μm below LAD ligation

Spatial transcriptomics data from the injured neonatal mouse heart.
